Here is the stack trace:

Below is a stack trace revealing the state Compostr was in when the error occurred. If this represents a bug in the unmodified software, you may want to check Compostr website for a fix, and if there isn't one, report this as a bug. Please note that merely posting a stack trace is not sufficient for us to solve your problem; the stack trace is just an aid that presents us with additional information. We still need to know the error message, what you tried to do, how you tried to do it, version numbers, and any other appropriate information.

We apologise for this problem and if it's a bug we hope you will work with us so that we can fix it for you promptly.
